

Boffins Mini PC

Boffins

Powered by Intel® our Mini PC has a small form factor and a tiny footprint. In fact it can be mounted to the back of a monitor so that it has NO FOOTPRINT AT ALL !!!

The Next Unit of Computing, or NUC, packs full-sized PC power in a box smaller than a one-person takeaway pizza. Choose the size of solid-state drive the amount of memory you need and you're done. Whether sat on the desk or hidden away your new PC can drive three 4K monitors and has multiple USB sockets for other devices.

Performance

The tiny PC with the power of a desktop in a small package.

Energy Optimised

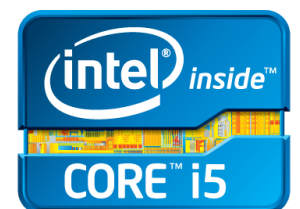

Consumes less power compared to a full-sized PC.

Easy to Operate

Ease of installation !
Add devices that scale up rapidly.

Reliability

3 years warranty and
24/7 customer support.

Perfect for the Home or the Office

Space Saver

Our Mini PC puts desktop power in tiny spaces. Tackle your to-do list with Windows 10 Pro 64-bit already installed. Get big time creativity from a PC only 4 inches square. Connect up to three 4K displays for streaming videos or editing your own photos and videos.

Fast and Powerful

Enjoy great performance from the latest generations of Intel® Core™ processors. Get faster, safer wireless connections; connect to phones, tablets and more with a variety of ports. Whether it's used for work or homework the Boffins Mini PC can be placed almost anywhere in your house.

Just tuck it out-of-sight when you're done!
